

What makes Zoho Connect unique?

About Zoho

Zoho Corporation is a privately held technology company based in Chennai, India. We offer beautifully smart software to help you grow your business. With over 100 million users worldwide, Zoho's 55+ products help facilitate your sales and marketing, support and collaboration, and finance and recruitment needs, with the long-term vision to transform the way you work.

What is Zoho Connect?

Behind successful businesses are employees who worked to make it that way. For everyone to work together, they need to be clear about the vision; organizations must allow people to share their ideas, their opinions, and feedback, build trust, and create an open culture—an environment that is conducive to learning, sharing, and growth.

This is our primary focus at Zoho Connect—to provide a modern employee experience and communication platform that brings employees together with the information and tools they need. The platform can help organizations promote transparency, trust, and enable the organization to work as a cohesive unit towards individual and common goals.

How can Zoho Connect help your organization?

Enhance internal communication

From dedicated **company news feeds** for official announcements to built-in idea management space, Connect provides a platform for **open communication**, fostering a **culture of transparency and inclusivity**.

Boost employee engagement

Empower your workforce with Connect's **peer-to-peer recognition**, allowing employees to acknowledge achievements and contributions. Conduct **virtual town halls or surveys** and **broadcast live** events or messages from the CEO. Measure **employee sentiment and engagement** with our rich analytics.

Streamline access to resources

Create a **centralized hub for all essential resources** with Connect's **customizable company dashboard**. Simplify access to information by creating **document or knowledge repositories**.

Facilitate cross-functional collaboration

Break down silos and promote collaboration across teams with Connect's **built-in task management solution**. Whether it's coordinating projects within departments or collaborating across different functions, our **Kanban-themed task boards** simplify planning, prioritization, and execution of work.

Digitize processes effortlessly

Leverage Connect's **intuitive no-code builder** to digitize and streamline various organizational processes. Design **custom forms and workflows** to automate tasks and enhance efficiency. For instance, you can establish a system for employees to request necessary software or equipment within the Connect platform.

Make Connect yours

Personalize Connect to reflect your organization's brand identity and values. Access Connect from **your domain, customize colors and themes** to showcase your brand, and enjoy **fully white-labeled mobile apps** exclusive to your organization, ensuring a cohesive and branded user experience.

Privacy and security-first platform

Rest assured knowing that Connect prioritizes the privacy and security of your data. Benefit from Zoho's robust privacy and security policies, ensuring that your sensitive information remains safe and confidential.

Zoho Connect vs. Workplace from Meta

About Workplace from Meta

The all-in-one business communication platform from Meta securely combines chat, feeds, and an organization's intranet with work tools. With features like live video and groups, users can share information and engage their employees. Meta has announced that they will be discontinuing Workplace. The platform will be inaccessible on May 31, 2026.

What sets Zoho Connect apart from the competition

Connect is a unified solution that provides the tools organizations need, from communication and ideation to engagement and execution, allowing organizations to use it in ways that reflect their work cultures and values to accomplish their vision.
