Our features

Onboarding

Create a personalized and positive experience for your new hires with candidate and employee onboarding workflows.

Attendance

Accurately track work hours, attendances, and shifts with an integrated system.

Timesheets

Enhance team productivity with a superior time-tracking system that enables you to log time, generate timesheets, configure approvals, and schedule jobs with ease.

Leave

Easily manage leave requests and holidays, configure multiple PTO policies, and automate approvals with a flexible time-off management system.

Performance

Evaluate every aspect of an employee's performance with accurate metrics like goals, KRAs, skill sets, and 360-degree feedback.

LMS

Fulfill the learning needs of your diverse workforce by creating and delivering content that aids in career growth and development.

Document management

Store your personal and professional files, and share them securely from a centralized location.

Reports and analytics

Turn complex data into simple, user-friendly reports for an in-depth analysis of different HR metrics.

Case management

Ensure prompt HR service delivery by employing dedicated agents to provide timely and accurate responses to employee inquiries.

Employee engagement

Gather instant insights into workplace sentiment and employee satisfaction with eNPS and annual surveys.

We're solving some of our most pressing issues with Zoho People. Whether it's tracking time off or managing shifts, the aviation industry requires extreme precision and we were able to accomplish that with Zoho People."

Surajit Banerjee,

Head of HR, SpiceJet Limited

Stronger together

Smoothly integrate Zoho People with native Zoho apps and other third-party applications to streamline routine tasks and save time.

HR on the go

Stay connected always and perform a range of HR actions from anywhere, at any time with the Zoho People mobile app.
